DISCLOSURE

THE WHITE HOUSE
WASHINGTON

Three Russian Crews -

We had warned Cuba
and Russia time and again
by three speeches by Pres
Kennedy and a joint
Cong. Res. he signed that
establishment of any offensive
bases in Cuba would
~~would be~~ in effect be
considered an act of War
against this Hemisphere.

Such an air strike and
invasion would therefore
have been in retaliation -

The fact that they had been

THE WHITE HOUSE
WASHINGTON

Oct 23rd

The ~~present~~ danger to
this country is in the
more than 40 missiles
already in place. ~~the~~ If
fired they would destroy
40 of our cities and inflict
millions of casualties on our
people.

The ~~pres~~ guarantee will
not ~~off~~ remove the danger.
I therefore advocated knocking
out these ~~missiles~~ and destroying
all missiles with bombs and
rockets before the guarantee
was ~~announced~~ ^{announced} to prevent them
from ever being fired by.

THE WHITE HOUSE
WASHINGTON

Warmed time and again
removed such action from
the "sneak attack" category
referred to by Sec. McNamara.

The guarantee will
cover bitter statements
and a series of incidents
that could more likely
lead to a nuclear war
than the fait accompli
of having done that
which we told them we
would do -

THE WHITE HOUSE
WASHINGTON

I brought word "Quarantine"
into conferences - 1st in
 Eisenhower admin -

I defined it as a blockade
limited to lethal weapons or
arms only - whereas "Blockade"
applied to all shipping and
all cargoes - including food -

I suggested it because
many writers on international
law assert "blockade" is
an act of war whereas there
is no precedent or definition
of "quarantine."
